

In the Name of Allah

Project Title : Prj 4

Programming Software : Visual Studio Code , Version 1.73.1

Programming language : JavaScript

Project Description :

1. If your country split in half, and each half would contain half the population, then how many people would live in each half?
2. Increase the population of your country by 1 and log the result to the console
3. Finland has a population of 6 million. Does your country have more people than Finland?
4. The average population of a country is 33 million people. Does your country have less people than the average country?
5. Based on the variables you created, create a new variable 'description' which contains a string with this format: 'Portugal is in Europe, and its 11 million people speak portuguese'

Project Solution :

```
// 1.
let population = 85;
let newPopulation = population / 2;
console.log(newPopulation);
// 2.
population++;
console.log(population);
// 3.
let myCountryPopulation = 85;
let finlandPopulation = 6;
console.log(myCountryPopulation > finlandPopulation);
// 4.
let averagePopulation = 33;
console.log(myCountryPopulation < averagePopulation);
// 5.
const description = `Portugal is in Europe, and its 11 million people speak portuguese`;
console.log(description);
```
