# In the Name of Allah

**Project Title**: Prj 4

**Programming Software**: Visual Studio Code, Version 1.73.1

**Programming language**: JavaScript

**Project Description** :

1. If your country split in half, and each half would contain half the population, then how many people would live in each half?
2. Increase the population of your country by 1 and log the result to the console
3. Finland has a population of 6 million. Does your country have more people than Finland?
4. The average population of a country is 33 million people. Does your country have less people than the average country?
5. Based on the variables you created, create a new variable 'description' which contains a string with this format: 'Portugal is in Europe, and its 11 million people speak portuguese

**Project Solution** :

```javascript
// 1.
let population = 85;
let newPopulation = population / 2;
console.log(newPopulation);
// 2.
population++;
console.log(population);
// 3.
let myCountrysPopulation = 85;
let finlandsPopulation = 6;
console.log(myCountrysPopulation > finlandsPopulation);
// 4.
let averagePopulation = 33;
console.log(myCountrysPopulation < averagePopulation);
// 5.
const description = `Portugal is in Europe, and its 11 million people speak portuguese`;
console.log(description);
```
